

# Mamba Diagnostics

## What is Mamba Diagnostics?

Mamba Diagnostics allows health professionals to:

- record client information
- record the results of any medical test
- report a diagnosis and suggested treatment based on the results of the tests and the client's age, weight, height and sex
- add treatment plans for a client from a standard list. This list may be modified and additional treatments can be added to suit the practitioner's individual needs
- provide their clients with a report that can be printed or emailed

[www.mambadiagnostics.com.au](http://www.mambadiagnostics.com.au)

**A client can have any number of clinical episodes, each with a number of test results.**

The results for any test can be recorded. Optionally, the result of a test may be calculated from the results of other tests.

Harding, Richard: Lochinvar

21/10/2005 09:30

Leucocytes: Negative

Protein: Negative

Carbohydrate: 4.9

Urine pH: 7.55

Saliva pH: 7.64

Cell Debris: 0.4 M

Salt: 15.1

Nitrogen: 13

Ammonia: 8

10/02/2005 10:00

**A Practitioner can classify the clients into any desired categories.**

You can classify your clients by their diet, metabolic type,

blood group, occupation or any desired category that you consider relevant.

Blood Group	Description
Diet Type	Kosher
Metabolic Type	Omnivore
	Vegan
	Vegetarian

**Define your own comments and report templates.**

- Practitioners may edit the standard comments and templates that are included in the report.

- Practitioners can add standard comments that can be incorporated into a Treatment Plan.

Name	Tyrosine
Description	L-Tyrosine
Notes	<b>Tyrosine</b> is needed by the thyroid gland which is a hormone that helps to regulate growth rate, metabolism and the efficiency of the brain.

## Diagnostics Rules

Rules are defined so that specific diagnosis and suggestions can be reported on the basis of:

- test results
- client categories (for example, diet, blood group or metabolic type)
- age, sex, height & weight.

	UpH	spH	Diagnosis	Suggestion
Rule 1	[6.2-6.6]	[6.2-6.6]	ComparePH6	ComparePH6
Rule 2	> 6.8	> 6.8	ComparePH1	ComparePH1
Rule 3	< 6.0	< 6.0	ComparePH3	ComparePH3
Rule 4	< 6.0	[6.6-6.8]	ComparePH4	ComparePH4
Rule 5	[6.6-6.8]	< 6.0	ComparePH5	ComparePH5
Rule 6	< 6.0	> 6.8	ComparePH2	ComparePH2

## Documentation

All the rules are documented, so you can see why particular comments are printed in response to the client's results.

If Urine and Saliva pH is recorded within the ranges listed below, then the relevant comments are reported.

	Carb	Diagnosis	Suggestion
Rule 1	[0.5-1]	Carbohydrate1	Carbohydrate1
Rule 2	[1.1-5]	Carbohydrate2	Carbohydrate2
Rule 3	[1.5-2.1]	Carbohydrate3	Carbohydrate3
Rule 4	[2.1-5.5]	Carbohydrate4	Carbohydrate4
Rule 5	[5.5-8.5]	Carbohydrate5	Carbohydrate5
Rule 6	[8.5-13]	Carbohydrate6	Carbohydrate6

## Client Report

A client report is produced based on the results of the tests. You may add additional recommendations, treatment plans and supplements from your standard list as well as typing individual comments.

Urine pH	6.40	Normal	Ideal: 6.20 - 6.6
----------	------	--------	-------------------

### Indications

Urine PH is in the ideal zone and indicates that for the time of the samples supplied you were in the ideal zone of digestion. This indicates that the vitamins and minerals that were in the foods that you ate. Ideal digestion is indicated when both urine and saliva are in the ideal zone of 6.2 to 6.6.

## Testimonials

The RBTI Analysis reporting system is easy to use and made specifically for the RBTI Analysis testing that I am teaching throughout Australia. It works brilliantly for us, cutting report time down to 10 minutes or less, allowing us to assist many more clients in much less time. We have saved hundreds of hours and it has become an invaluable part of our business. I highly recommend that anyone who wants to do written RBTI Analysis reports purchase and use this software.

David Lomman  
Co-Founder Holistic Pathways

My name is Marcia Pitman and I run a Bioresonance clinic in Brisbane. I have trained in RBTI and have been using the Mamba computer program to process results and printouts for my clients. I have found Mamba to be invaluable and feedback from clients is very positive. The online service from Richard has been helpful and efficient.

Marcia Pitman  
Brisbane

Richard is wonderfully considerate and helpful and he has been called on many times to assist my Kinesiology Practice. He pays impeccable attention to every detail of the work that he undertakes which he does with enthusiasm and caring. I admire Richard's skills and abilities and he uses his insight, common sense and intelligence to wisely assist the people with whom he is working to achieve wonderful results.

Loreto Whitney  
Maitland

### Windella Computer Knowhow

Richard Harding is the director of Windella Computer Knowhow. He has worked in the Information Technology industry for over 30 years working in banking and pathology sectors working for companies such as CBC Bank, National Australia Bank, State Bank of NSW, Reserve Bank of Australia and Hampsons Pathology.

He has developed computer training programs for Kosovo residents at Singleton Army base and taught public speaking courses for the local Girl Guide region.

He is passionately interested in health and education with his daughter attending a local Steiner school. He lives in the Hunter Valley of NSW.
